INDEX TO VOLUME 6

Adalier, M., 285
Anderson, J., 103
Arnold, K. F., 331
Asynchronous production system, 485
Automated weld-process design, a case-based reasoning approach to, 315
Autonomous mobile robot in a real-time environment, 485

Bouzid, L., 443
Bretschneider, F., 45
Bublin, S., 353

Cardoso, A., 207
Certainty factor theory, 147
Chan, O. W., 167
Classifier systems, 79
Concept formation, forgetting and aging of knowledge in, 195
Conceptual learning techniques, application of to generalized group technology, 443
Concurrent design, 1
Consistency checking along time, 207
Costa, E., 207
Crysdale, G., 103

De Guio, R., 443
Delong, J., 303
Design flow modeling, 45

Elliptical profiles, computer vision inspection of, 511
Evans, M., 103

Fault hypotheses, generating with a functional model in machine-fault diagnosis, 353
Finger S., 257
Flexible autonomy in multiagent systems using constraints, 103
Fox, M. S., 257
Frost, V., 529

Goldberg, D. E., 79

Ham, I., 529
Hawley, M., 303
Herman, A. E., 331
High autonomy: design, 1
High-autonomy architectures: endomorphic modeling concepts, 2

Information system-oriented expert system shell, 147
Intelligent computer integrated manufacturing (I-CIM): research perspectives, 529
Intelligent syntax-directed editor that models user proficiency, 167
Iyenger, S. S., 485

Kamel, A., 303
Karinthi, R., 389
Kashyap, R. L., 353, 529
Knowledge-based management systems, 131
Knowledge-based system, an approach to monitoring and diagnosing engineering processes by, 417
Knowledge-based management, 45
Krizakova, I., 195
Kubat, M., 195
Kumara, S. R. T., 529

Lagger, H., 45
Lan, M. S., 315
Lee, J. M. F., 315
Liu, A., 167
Lu, S. C.-Y., 331

Morizet-Mahoudeaux, P., 417
Multilevel design, 131
Mutel, B., 443

Nau, D., 389

O'Connor, L. J., 315
Ohsuga, S., 529
Orman, L. V., 131

Partridge, D. R., 315
Pattern recognition systems, performance-driven autonomous design of, 59
Pin, F. G., 485
Prinz, F. B., 257
Process-planning, handling feature interactions in, 389

Qui, Dan, 147

Ramesh, R., 459, 529
Rao, H. R., 459
Reinforcement learning, 79
REINRED, redesigning for manufacturability using, 285
Rinderle, J. R., 257
Riski, M. M., 59
Rozenblit, J. W., 1

Sabharwal, S., 485
Smith, R. E., 79
Sticklen, J., 303

Taguchi approach, a dynamic learning model for on-line quality control using, 459
Tamburino, L. A., 59
Thin film composite materials, an artificial intelligence-based design tool for, 313
Thirumurthy, M. V., 459
TOPS: an intelligent associate for turning operation planning, 331
Tsai, J. J.-P., 167
Tsatsoulis, C., 285, 529

Ventura, J. A., 511

Weisbin, C. R., 485
Wu, C.-H., 511

Yang, Q., 389

Zeigler, B. P., 19
